# WALL SCONCES SERIES

**Refined Details** / When creativity is focused on details, the details will create ambiance. These hidden lanterns cast a soft light and with their refined design they become integral pieces of a finished work. Our wall sconces were designed to complement our lines of luminaires and to add a polished look and feel to any project.

>>  
LUMINAIRE > ECLW

## QUALITY DETAILS

**Not only are our wall sconces visually appealing they are also very technologically advanced.** All models benefit from durable construction for long life and state-of-the-art optics for continuous quality of light. They can be equipped with a variety of light sources and are Smartseal™ IP66 protected against the elements.

## ENHANCE YOUR DESIGN

**Lumec's wall sconces are recognized for their capacity to add to the design of a project.** They are the perfect method of highlighting architectural details and adding atmosphere and harmony to any location. With their refined lines, they make the urban environment more attractive and provide new possibilities for creative lighting ambiance design. >>

# BENEFITS

- › Toolfree access to lamp and electrical components for ease of maintenance.
- › Adds a personal touch to the finished project with a variety of optional accent materials.
- › IP66 sealed optics for protection from the elements.
- › Available with various light sources and wattage.
- › Durable and quality construction for long life.

# LUMINAIRES

Conform to the **UL 1598** and **CSA C22.2 No. 250.0-08** standards

/ Some luminaires use fluorescent or high intensity discharge (HID) lamps that contain small amounts of mercury. Such lamps are labeled "Contains Mercury" and/or with the symbol "Hg." Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycling and disposal can be found at [www.lamprecycle.org](http://www.lamprecycle.org)

The choice to not print paper brochures anymore but to make them available on-line is an example of the positive environmental actions that Philips Lumec has decided to undertake. This not only considerably reduces our paper consumption but also guarantees the exactitude of the information our clients receive.
